EXPERIENCE

Gurukrupa Placement and Education (Internship)   02 Jan 2024 – 02 Feb 2024

- Updated the website to use Next.js, moving from traditional HTML, CSS, and JavaScript to benefit from Next.js framework's efficiency and capabilities.

PROJECTS

Car-Dealership   GitHub   View Project

- Developed car dealership app enabling secure chat and bargaining with dealers.
- Integrated features for car viewing, watchlist management, and seamless payments.
- Implemented authentication via JSON Web Tokens, ensuring secure user interactions.

Notion-Clone   GitHub   View Project

- Utilized real-time database for seamless collaboration and instant updates across all documents.
- Implemented user-friendly editor, offering intuitive editing for enhanced productivity.
- Infinite children documents with soft delete functionality, ensuring effortless content management.
- Notes can be published and shared.

Airbnb-Clone   GitHub   View Project

- Enhanced user experience with seamless operations: property listing, booking, managing, and trip viewing.
- Implemented robust search features for property discovery by country, room count, guests, and bathrooms.
- Simplified onboarding: Google, GitHub logins via Next Auth for easy, secure access.

PaperCanvas   GitHub   View Project

- Developed an online real-time sketch drawing application using Next.js, TailwindCSS, and Redux toolkit.
- Experimented with Canvas API, WebSockets, and Node.js to achieve real-time collaboration.
- Used PostCss for customization and Vercel as a deployment tool.

EDUCATION

Bachelor of Technology (CSE)   7.86 CGPA
Sagar Institute of Research and Technology, RGPV
